I look forward to sharing with you my 10 plus years as an eBay user, my first User ID was hjrhino which I will explain to you during 101. I have been selling for clients and for myself on eBay for the last 3 years and doing it fulltime since November of 2007. EBay is an incredible tool for those that use it to their advantage, as in all things it has its problems but when you know what to look for they can be easily avoided. All of my students will have FREE phone and on site support for their eBay efforts for 60 days from the end of class so you have access to me for challenges and opportunities that you will find with eBay.
